ABOUT ME

I see a huge future for the IT sphere.

I liked Java because this language is strictly typed, cross-platform, secure, and it is also widely used by many companies in large projects.

I am not afraid to develop myself by reading books and technical documentation.

I am fond of sports and I study English.

EDUCATION QUALIFICATION

TeachMeSkills

Course «Java developer»

Jan 2022 - Oct 2022

- Studying Java core
- Git operations
- Database handling
- Working with web technologies
- Working with the Spring framework
