ABOUT ME

I see a huge future for the IT sphere.
I liked Java because this language is strictly typed, cross-platform, secure, and it is also widely used by many companies in large projects.
I am not afraid to develop myself by reading books and technical documentation.
I am fond of sports and I study English.

EDUCATION QUALIFICATION

TeachMeSkills
Course «Java developer»

Jan 2022 - Oct 2022

EXPERIENCE

- **last project technology:** Spring-boot-starter-web, data-jpa, security, jsonwebtoken, devtools, mysql, mongodb, jsoup, springdoc-openapi-ui, lombok, liquibase
- **ref:** https://github.com/PavelGrigoryev/parser
- **second project technology:** Spring-boot-starter-data-jpa, webflux, lombok, mysql
- **ref:** https://github.com/PavelGrigoryev/Another_Crypto_Currency_Watcher
- **first project technology:** Spring-boot-starter-webflux, mongodb-reactive, lombok, mongodb-test
- **ref:** https://github.com/PavelGrigoryev/reactiveCRUD
